

Why LifeAssist?

- Average response time is 5 seconds* or less
- Call centers are located in Ohio and Minnesota
- Call center support 24 hours a day, 7 days a week
- 100% dedicated to medical alarms only
- Emergency response dispatchers are trained to assess needs and call for help even when they cannot make voice contact with the customer
- All equipment is made and manufactured in the USA

**after signal is connected to the call center*

Home Health & Hospice

As part of Orange City Area Health System, our mission is to provide high-quality, compassionate, holistic, and cost-effective home health care.

We want to help you achieve the highest level of independence in your home, and we believe offering medical alert services to our community is a way we can do that.

If you would like more information about any Home Health assistance we can provide, including nursing, therapy, aide, and social work services, please call our office at 712-737-5279.

MOBILE EMERGENCY ALERT SYSTEMS

Best for those who would like the option to summon help no matter where they are.

- Lightweight and easy to wear
- Call center assistance is available wherever there is a cellular signal
- Wearer communicates directly with the call center through the built-in speaker and microphone
- Not tethered to a landline or personal cell phone, giving you freedom to summon help anywhere you go
- Shower-safe transmitter with adjustable neck cord
- Battery lasts up to 30 days per charge

- Charging cradle is easy to use
- Necklace only

INDEPENDENCE AND RELIABILITY

Orange City Area Health System has partnered with Life Assist to offer monitoring services that connect your loved one to immediate assistance when help is needed. Emergency responders are summoned with a simple push of a button, offering peace-of-mind that a helpful voice will be on the line when a health emergency is occurring.

Falls are the leading cause of injuries for older Americans.* Even if no injury occurs, quality of life can be heavily impacted if a person is unable to summon for help in a timely manner. Our medical alert systems help people regain confidence and independence in the home.

Please contact us to learn more about our alert systems and how they are a practical, affordable solution to giving loved ones security in their home.
